MISSION STATEMENT

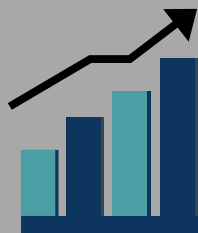

An aerial photograph of a city skyline, likely London, featuring various buildings and a prominent dome. A white rectangular text box is overlaid on the image, containing the main text. A dark grey horizontal bar is positioned to the left of the text box, and a thin black vertical line extends from the bottom of the box down to the bottom edge of the image.

DEFINE THE PROBLEM, FIND THE SOLUTION

Rising expectations of corporate responsibility and greater interest in ESG investing made sustainable development more a necessity than a choice for businesses and investors.

Commitment needs to be followed by an adaptation of business models, strategies, policies and compliance with regulations. We offer our expertise as sustainability professionals to guide our clients in this shift of paradigm to make sustainability a profit-generating opportunity whilst being good for society as a whole.

ESG Challenges

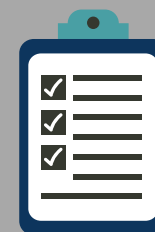

Integrating ESG risks into long-term strategies to reduce externalities while creating meaningful impact

Keeping up with current and upcoming ESG Regulatory requirements and international trends.

Setting up due diligence processes under increasing pressure for supply chain accountability.

Finding reliable and consistent reporting frameworks for ESG disclosure with symmetric and high-quality data.

RIGHTS-BASED APPROACH

International norms and standards, and the SDGs, can be applied globally, promoting consistency in business planning, projects' execution and reporting around regulatory sustainability issues.

EXTENSIVE NETWORK

BST Impact is a conglomerate of specialized boutique firms and associates with specific expertise that provide holistic solutions to ESG challenges.

BACKGROUND

With vast experience in policymaking, legislative development and project implementation we assist our clients with compliance, monitoring and adaptation to existing and upcoming regulations.

GLOBAL REACH WITH PERSONALIZED SOLUTIONS
